This park is owned by the Village of Camden and is maintained by the Camden Beautification Committee. The park is situated on the south side of the lot which also contains the Camden School (not picture), now senior apartments, as of 2015. This building and block-size lot containing Centennial Park was originally the site of two consecutive Camden schools and school yards.* As of 2015, the Centennial Park occupies the south part of the old Camden School yard. This building lot, which was part of a large orchard at the time, was donated to the Village of Camden by Felix March in 1853 for the purpose of building a new two story, four-room brick school at the cost of \$4000. This school was used continuously for 51 years, until due to major remodeling needs, it was replaced in 1904 at a cost of \$13,667.40 by the Camden School building still in use on this site as senior apartments. This building was dedicated on Nov 28, 1904, and by the 1960's used as the Camden Middle School. 258 - Side 1	Side 2	1957	South Main St, Looking north from Snively Shoe Store on West side and Caskey Furniture on east side of S. Main St toward Webb's Drug Store on Central Ave. 1957 or later (see 1957 Ford.)	Camden Archives, donated by Barbara (Liscomb) Harter in 2011. The photograph is of S. Main Street, looking north toward the Central Avenue intersection. The whereabouts of the original photograph is unknown. Barbara bought the framed picture from the Traditions Restaurant, Eaton, Oh, when that business was selling items as it went out of business. The picture then sat in her attic for many years before she donated it to the Archives. Notice the Snively Shoe Store sign in the lower left hand corner of the photograph. In May, 2015 Mr. Bob Snively from Richmond Ind, grandson of William Snively, owner of the shoe store in the photo, contacted the Archives looking for a copy of a picture he'd seen hanging in the Traditions Restaurant when he was a child. Amazingly, that picture was hanging on the wall in the Archives. Mr. Snively visited the Archives on June 25, 2015 and took a digital photo of this large framed photograph which showed his grandfather's store. This copy is a print of that digital photo that Bob took of the large framed photo donated by Barbara Harter to the Camden Archives. —Cherry Anderson, Oct 3, 2015

Lafayette St. The building on this lot (presumably the building in this picture, and it's successor, are described in Ruth Neff's History of Camden 1803-1955, Chapt VI, pp 198-206: This building lot, which was part of a large orchard at the time, was donated to the Village of Camden by Felix March in 1853 for the purpose of building a new two story, four-room brick school at the cost of \$4000.
