

Instructions:

1. Assemble your supplies: yellow fleece, red yarn, blue yarn, a small bowl, marker, and paper or other crinkly material. (You can also use a sock, old shirt, cotton stuffing, etc. if you want to make a quieter toy.)
2. Fold your fleece sheet in half and trace a circular design on the fleece. Cut out both layers of fabric.
3. Take a length of blue or red yarn and tie it so that it forms a big loop.

4. Make a hole with your thumb and pointer finger and push the yellow fleece circle through it.
5. Stuff the fleece with the filling of your choice.
6. Add the yarn loop and tie it tightly. Add the other color of yarn if desired.
